Animoto Instructions

What kind of video do you want to create?

Choose a style. Do Not pick a Premium version. Check out all the options to find a good fit for your genre.

Click create.

In order to upload pictures, you need to have them saved somewhere first.

Click plus box to start. At any time you can change song or style.

When you click the plus box the option of adding Text or pictures will appear.

Once you have text and pictures loaded, you can change the order by dragging the boxes left or right.

Preview your finished video before you finalize or produce it. Your video should be at least 1 minute long.

Check out the Ashley Readers page for videos other students have created to see what finished product will look like.
